

Spec sheet for Mobile Site Van (7 Series)

Built to handle Australia's toughest worksites, our Mobile Site Vans provide a fully self-contained, ready-to-use site office that keeps your team productive from day one.

Delivered to your site and ready to use immediately, our vans require no trade setup - simply position the van and get to work. With 85% solar capability, air conditioning, a kitchenette, and toilet facilities, your crew has everything they need to work comfortably and efficiently, even in the most remote locations. Heavy-duty construction and mine-compliant specifications make them the ideal solution for construction, mining, infrastructure, and civil projects.

Designed to accommodate up to 12 people, our 7 Series van offers a practical, reliable, and cost-effective solution for site offices, breakrooms, meetings, inductions, and day-to-day project management, wherever your project takes you.
